Subject: RE: b2b access for data entry office

They are already in the system their USERNAME is the first letter of their first name and their last name all lower case i.e. [REDACTED] and once they sign on they can change it. Ramana and I will be up on Monday to put the to setup the machines in the clerical.

Ok....Do they want to use the same password that they use to access the network? If so, I will need them to get the passwords from them.

Thanks...Dina

Subject: b2b access for data entry office

Hi Dina:
Can you set up access to B2B test system for the data entry office staff?
Rita Lungelow
Jackie Hankerson
Janice Zanolli
Charlene Phillips

Thanks,
lh
